Straight lines and geometrical shapes of the furniture are the basics of this design. Luxurious seating made of dark brown sofas arranged in 'L' shape has a large centre table topped with glass. The brick-red curtain drawn over the big window spreads radiant hue in the room and creates an appropriate ambience. Nature's green and natural wood has been used for the TV unit. The interesting ceiling pattern above the TV unit is a focal point of the room. Similar ceiling adorns the stone clad corner holding an antique looking wash-basin.

Laminates used over kitchen cabinets make a personalized design since trendy laminates offer abundant textures and colours to match with. The bedroom has low box-base bed and matching wardrobe. The bed spread and the pillow covers are the awesomely apt selection of the designer.

Designed by Pankaj Dutt,
Pacific Associates, Mumbai.

As one sees that the selection of the bed sheets and the window drapery contribute a lot in overall interior of the room designed by designer Parshant. The framed white tiles on the wall, match the same apple-white and green shades used in the room.
